

Idaho Coalition for Safe Reproductive Health Care

Medical Termination of Pregnancy Saves Lives

Our mission is to collaborate with lawmakers to improve statutes related to the provision of reproductive care in Idaho.

We seek to inform Idahoans, our elected officials, and the courts regarding the public health endangerment resulting from our laws and ensure future laws are congruent with principles of western medical ethics, standards of medical practice, and the preservation of the doctor-patient relationship.

The ICSRHC is a growing coalition comprised of individual health care providers, as well as representatives from multiple medical specialty associations and healthcare delivery systems who share serious concerns regarding the ability to provide evidence-based medical care to pregnant persons due to Idaho §18-622 (Total Abortion Ban).

Facts

- Idaho's restrictive abortion laws place physicians in an ethical dilemma.
- Restrictive abortion laws delay care, putting patients at undue risk of unnecessary morbidity and mortality.
- Medical decisions are personal.
- Pregnancy is always risky.

Objectives

1. Protect the doctor-patient relationship
2. Advocate for legislation change
3. Mitigate harms to the health care workforce
4. Support fetal palliative care
5. Ensure access to reproductive technology
