

Ada County Strong

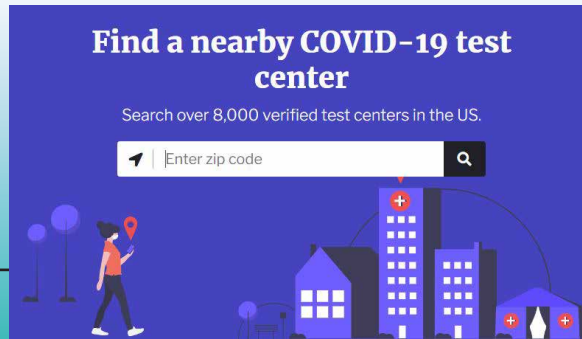

When it comes to your health, knowledge is power, and peace of mind. As we enter the winter months ahead, local public health experts expect the surge of COVID-19 cases in the community to worsen. If you or members of your family want to be tested there are many options available.

We have collected as many current testing locations as possible for you. We will update this list as new information and testing sites become available.

You can also request a free at-home test kit from Albertsons. <https://scheduletest.com/>

This tool allows you to enter in your zip code and find the most convenient place.
